Genuine Ski-in Land - Development

Moiwa Ski Resort is the hidden gem of Niseko, receiving dumps of powder snow minus the crowd. This situation won't last much longer, as word of the abundant fresh tracks this great resort has to offer is getting out. As more eyes are turning towards Moiwa, now is the ideal time to invest in the area, at a fraction of the price of the other resorts.

This 18,941 sqm site is arguably one of the best plots in Moiwa. It's central location offers road access on 3 sides, an easy walk to the ski lifts, and a convenient ski-in access. A concept plan has been drawn up for a housing sub-division, but this generous plot offers numerous possibilities from grand hotels to luxury condominiums. With natural onsen water so close to the surface in its surrounding areas, communal or even private onsens may be attractive options for the development. The Moiwa area is now really gaining traction with both private investors and development companies and this is the once-in-a-blue-moon opportunity to take the best piece of the pie.
